## ABOUT PUCRS

+50 undergrad programs
+45 grad programs
+25k undergdad students
+5k grad students

+1.5k professors (90% with master and PhD degree)
+5k employees

TECNOPUC and PUCRS
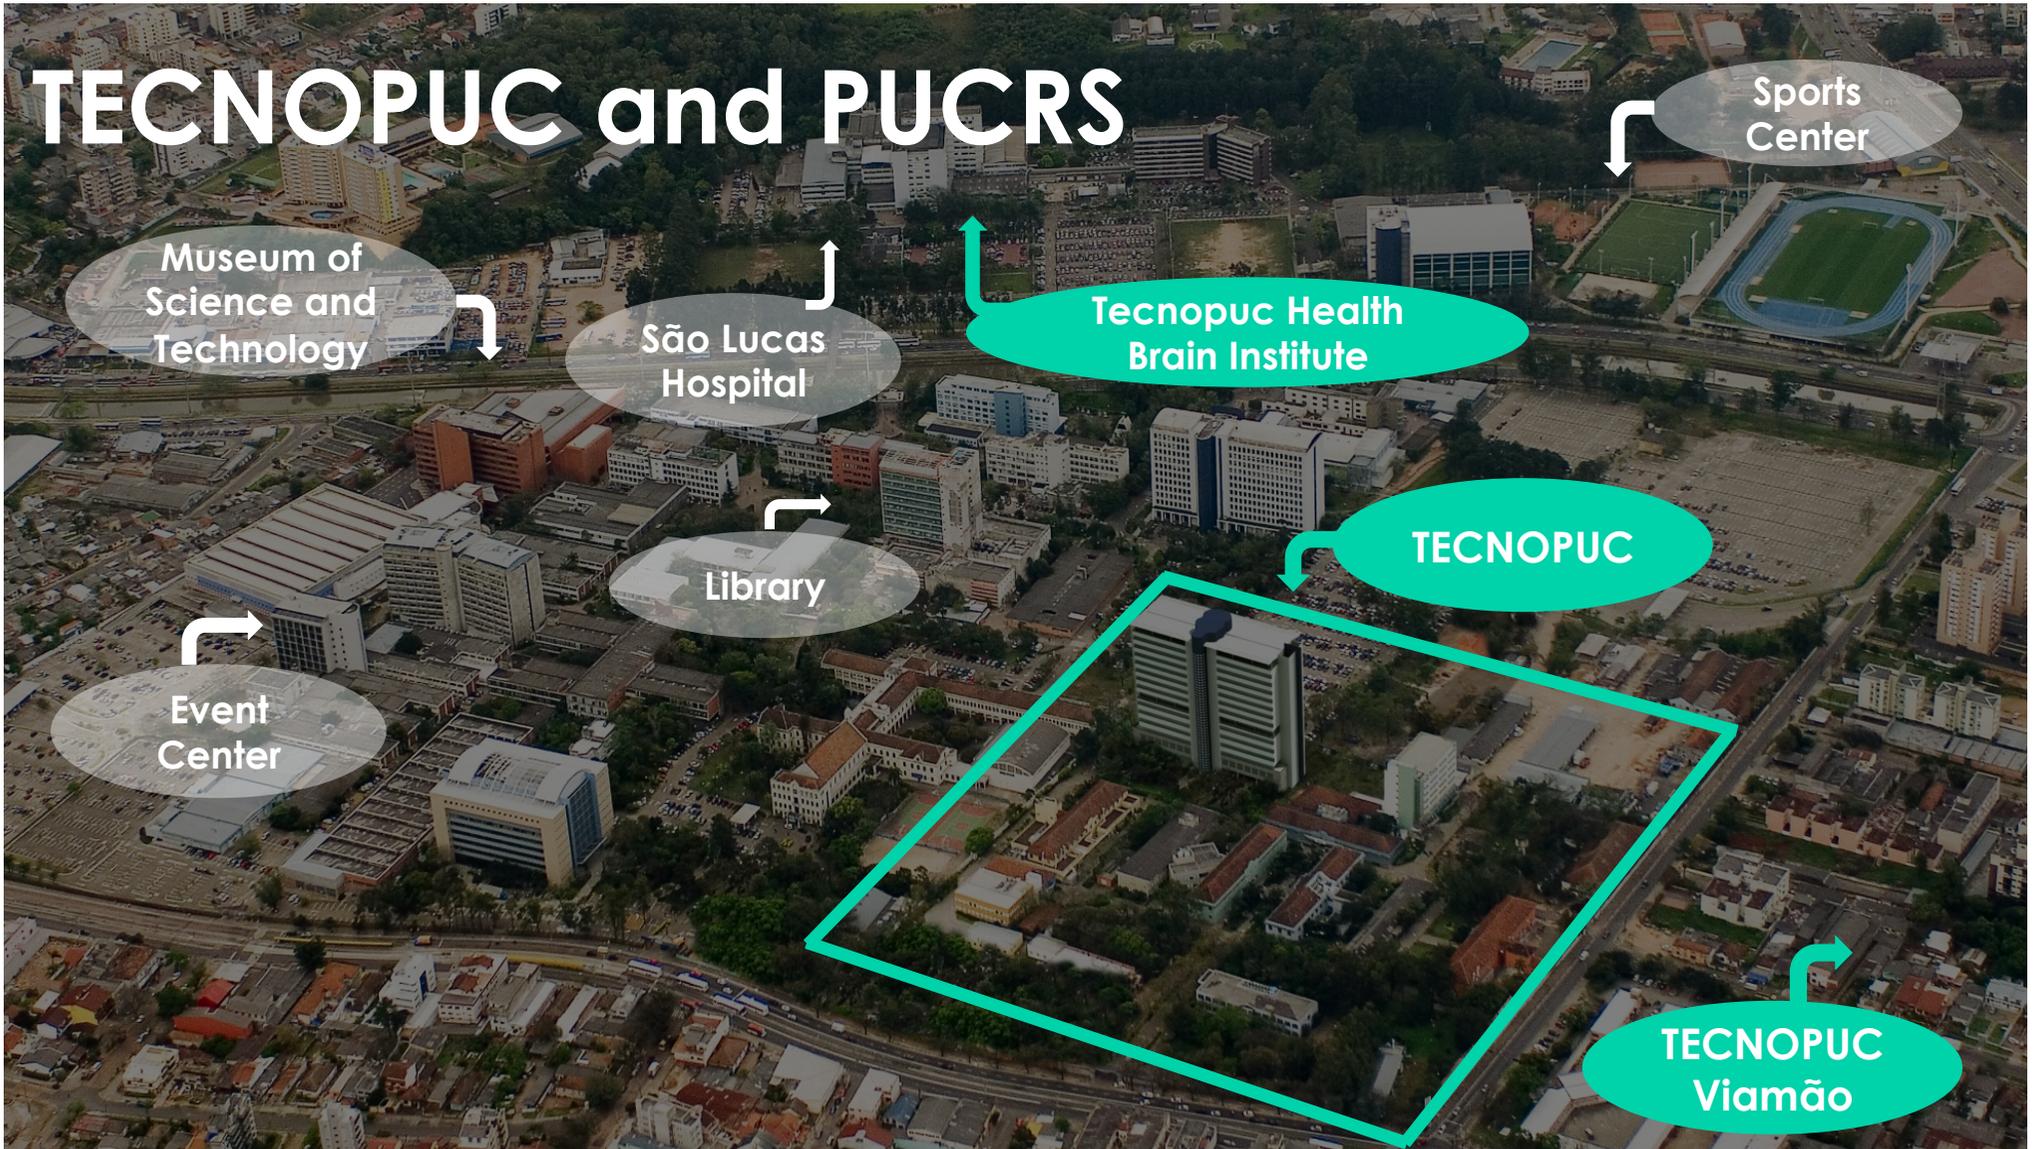

Sports Center

Museum of Science and Technology

São Lucas Hospital

Tecnopuc Health Brain Institute

TECNOPUC

Library

Event Center

TECNOPUC Viamão

TECNOPUC Numbers
124 organizations (60% IT)
More than 6k jobs

Most of the IT companies at TECNOPUC
work with distributed software
development teams

Mix of organizations
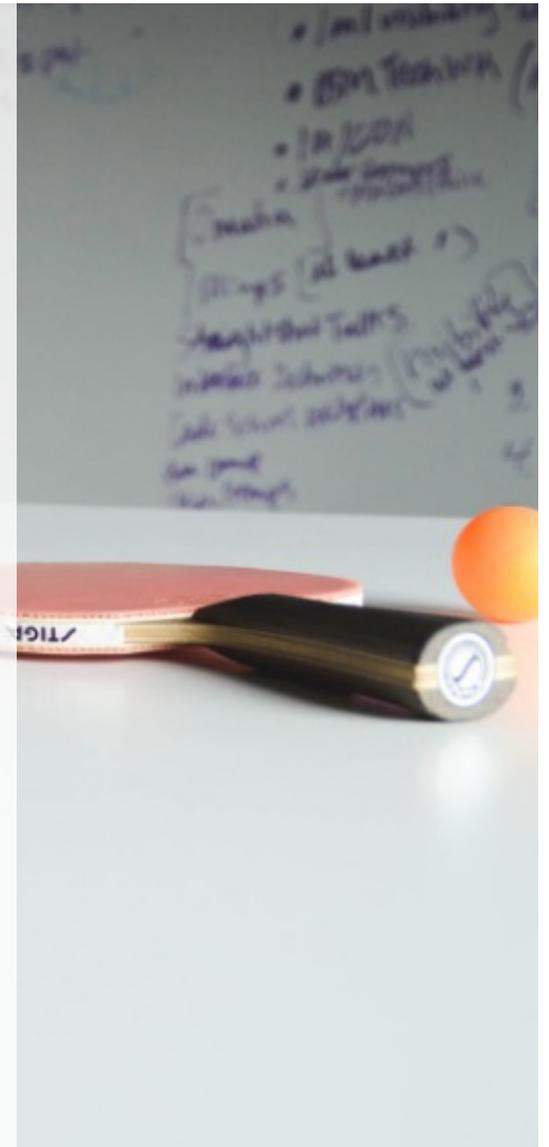

Mix of organizations
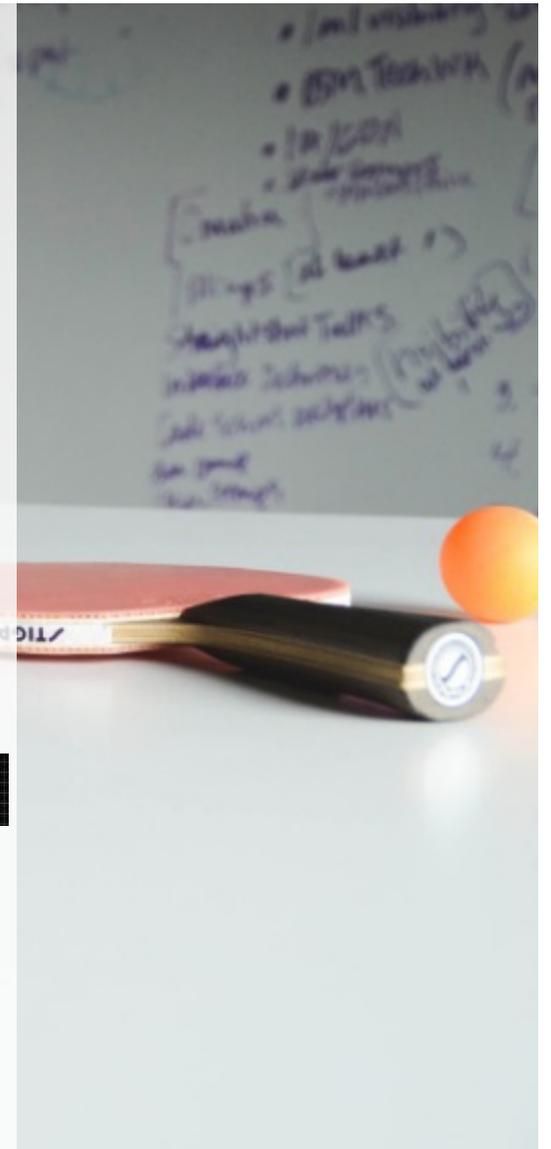

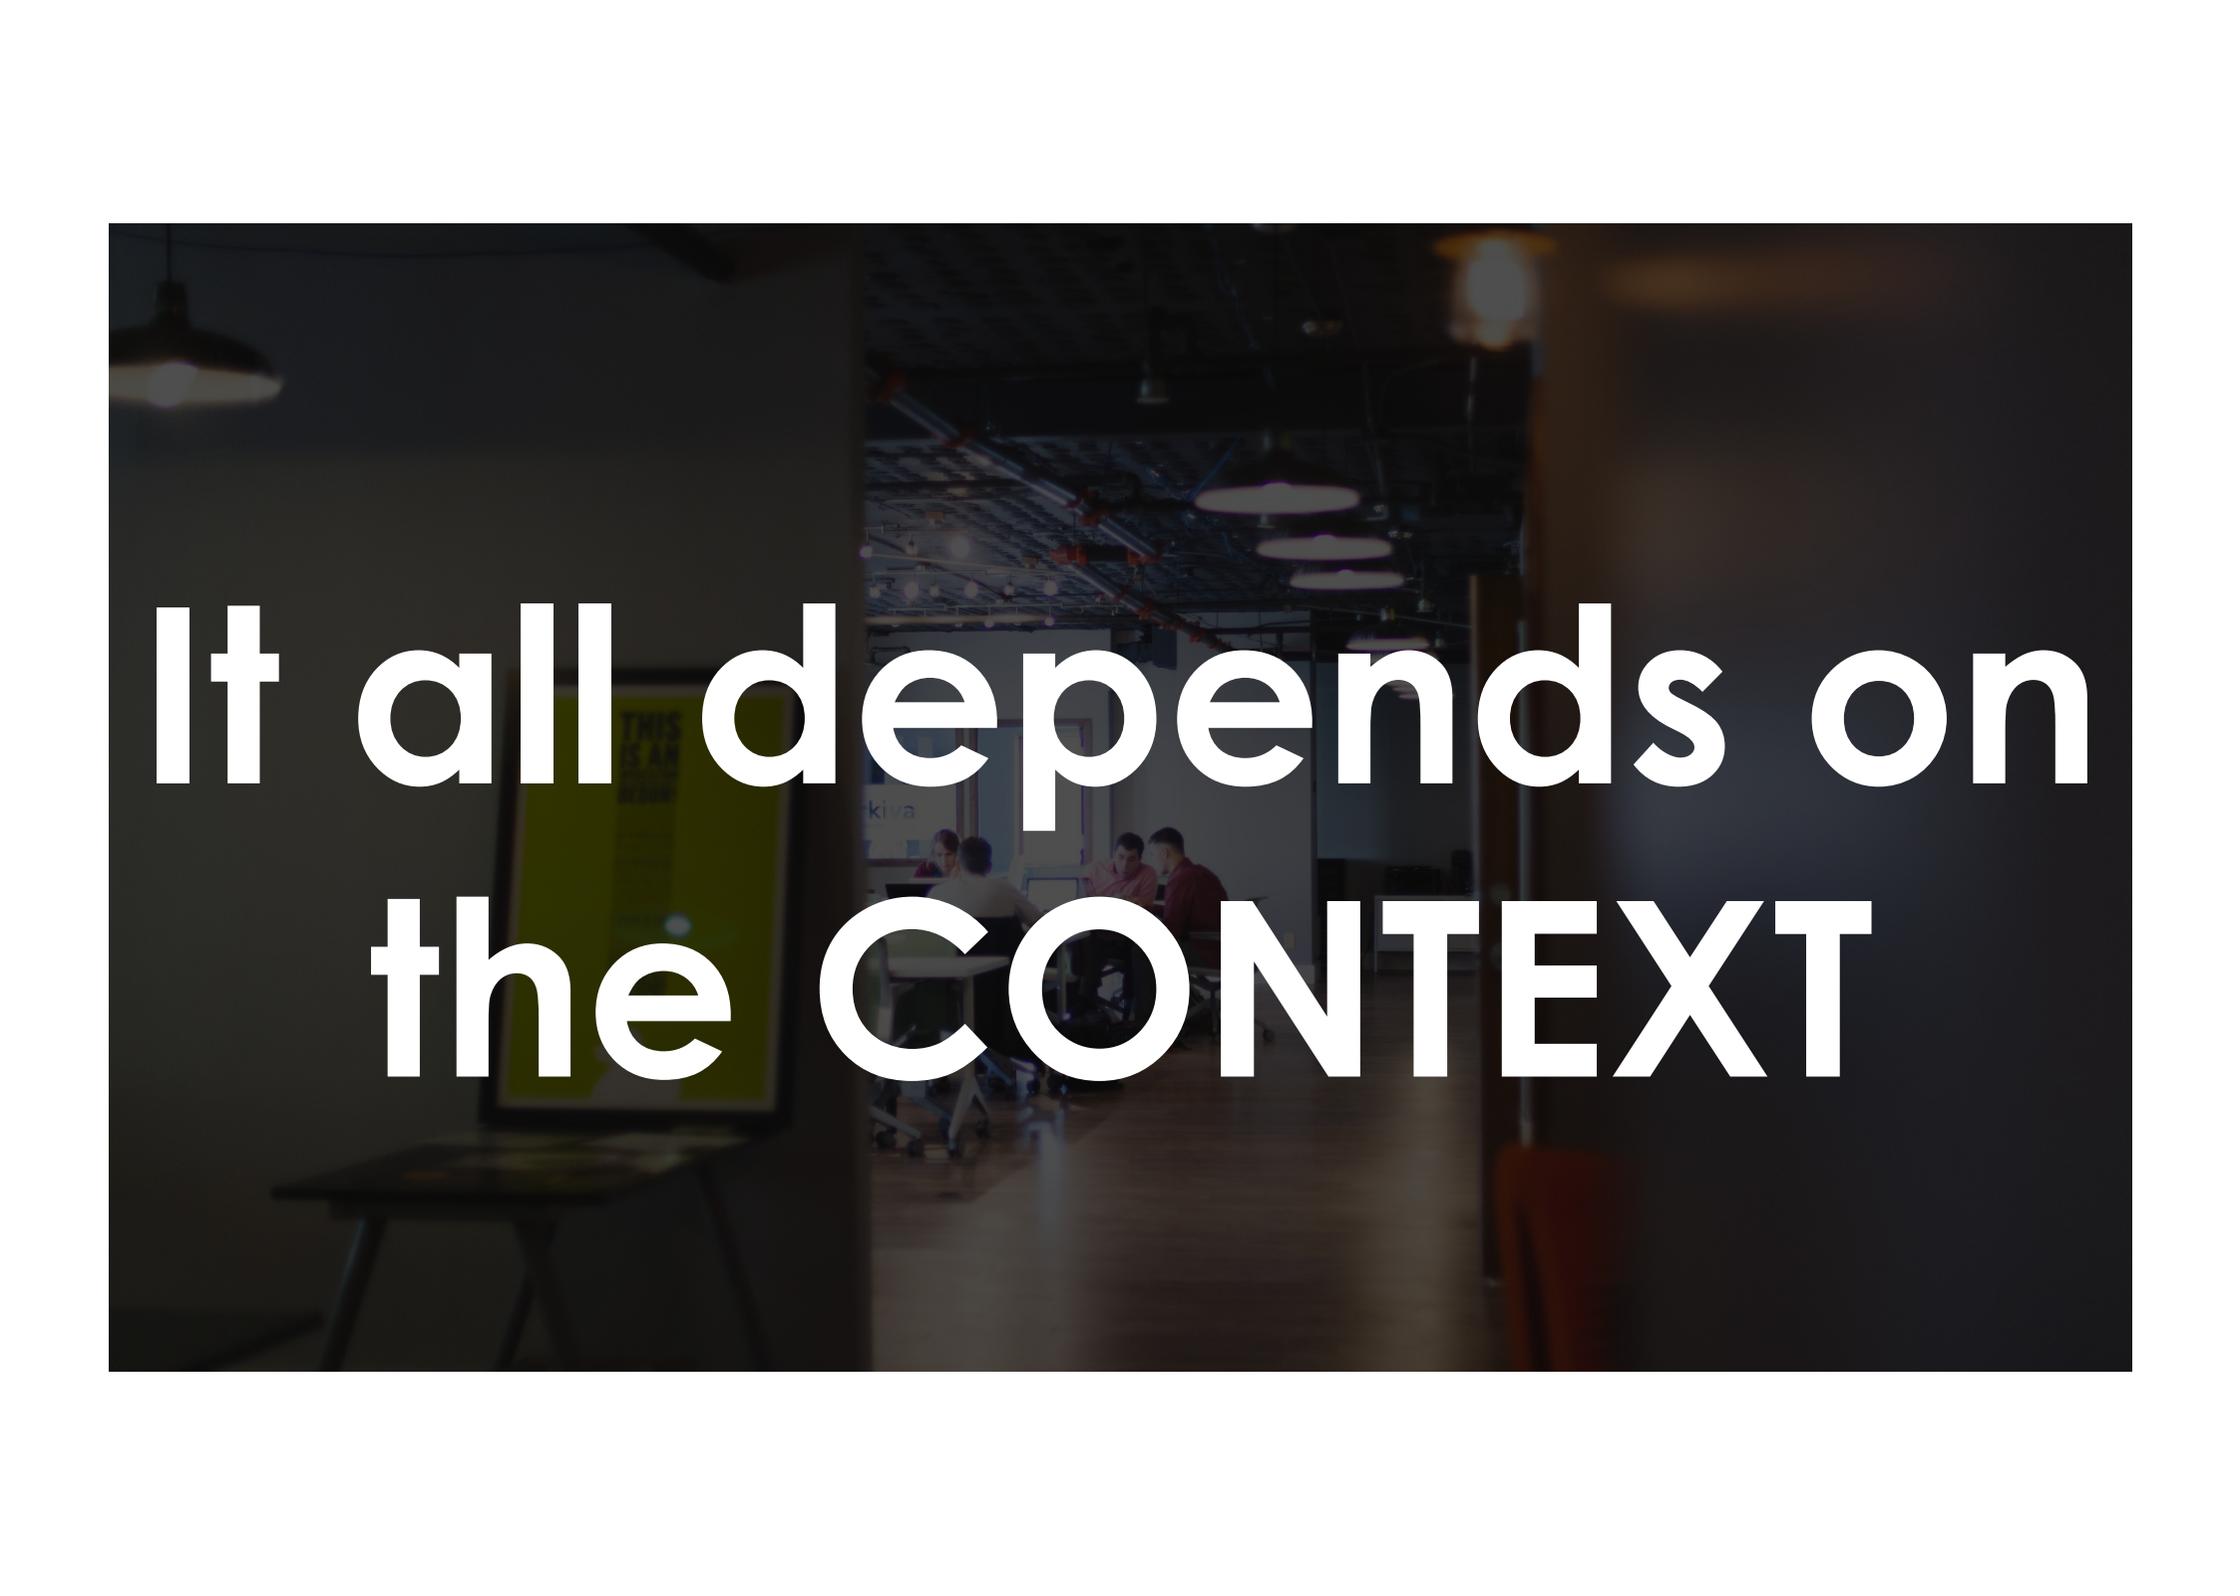

It all depends on the CONTEXT

Location	Legal entity	Geographic distance	Temporal distance
	Insourcing +		
Onshore	*Outsourcing*	Close	Similar
		Distant	Similar
			Diferent
		Near	Small
Offshore	*Insourcing*	Far	Small
	Outsourcing +		Large
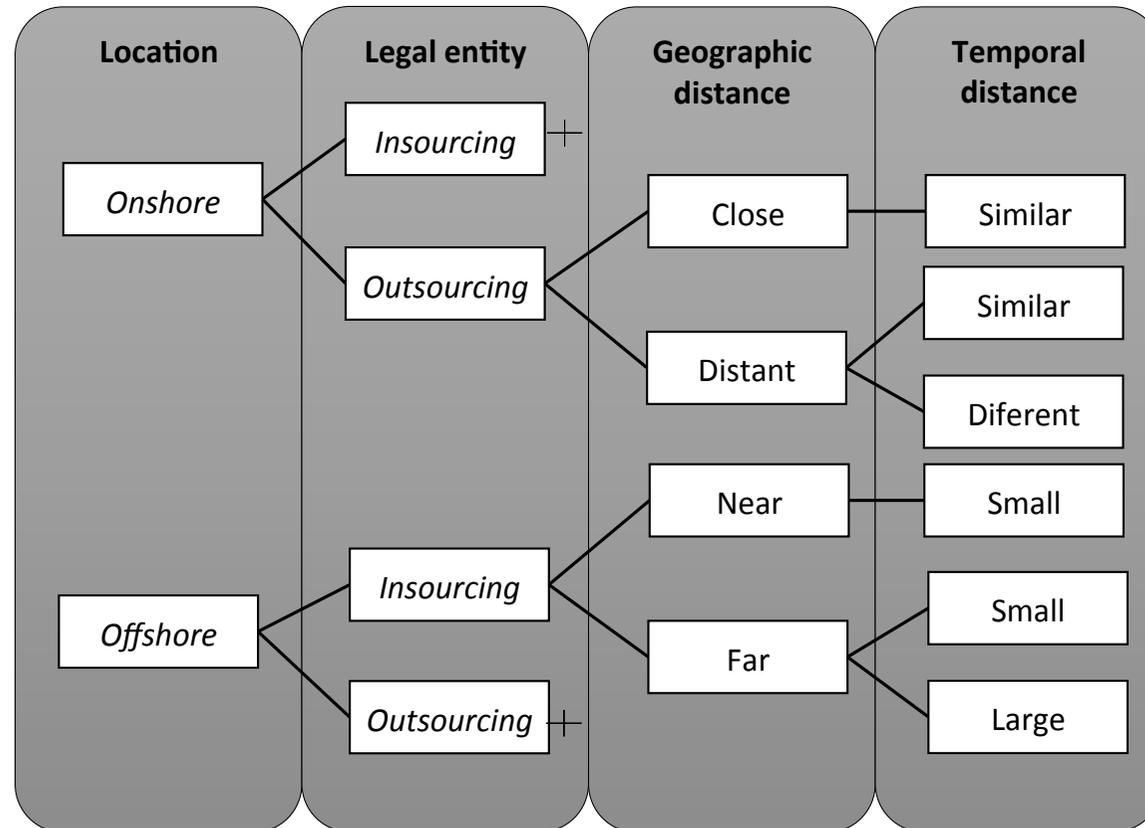

Darja Smite, Claes Wohlin, Zane Galvina, Rafael Prikladnicki: An empirically based terminology and taxonomy for global software engineering. Empirical Software Engineering 19(1): 105-153 (2014).
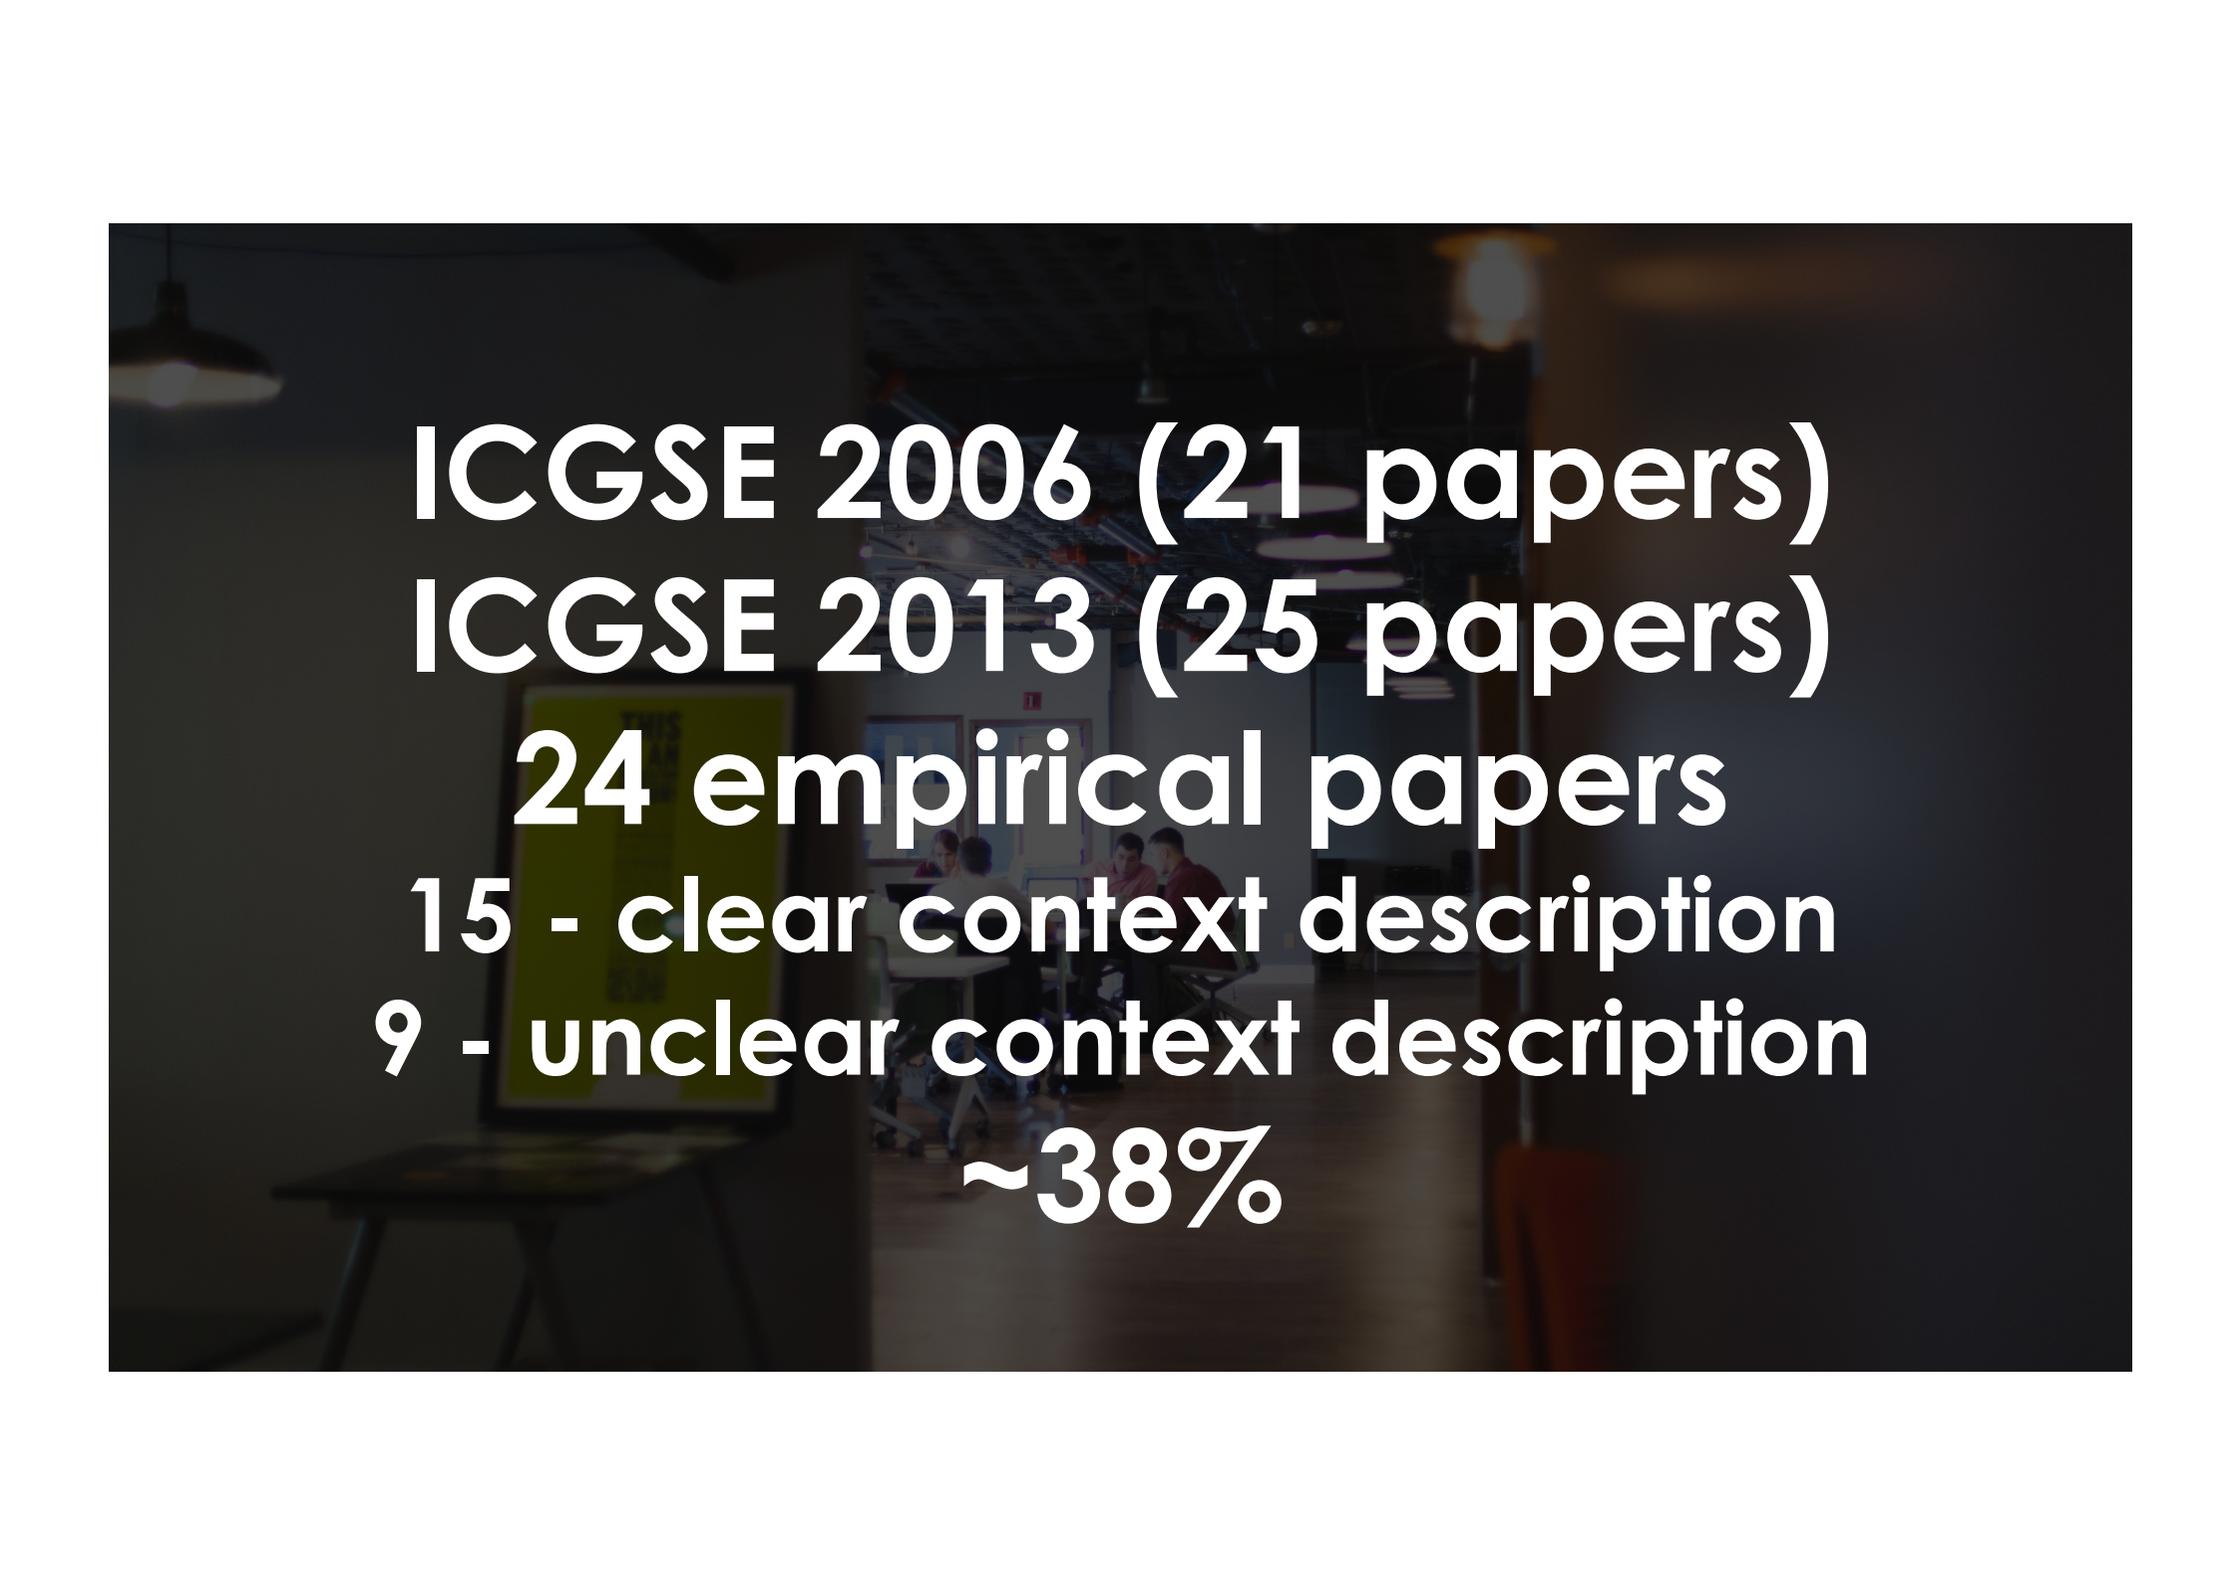

ICGSE 2006 (21 papers)
ICGSE 2013 (25 papers)
24 empirical papers
15 - clear context description
9 - unclear context description
~38%
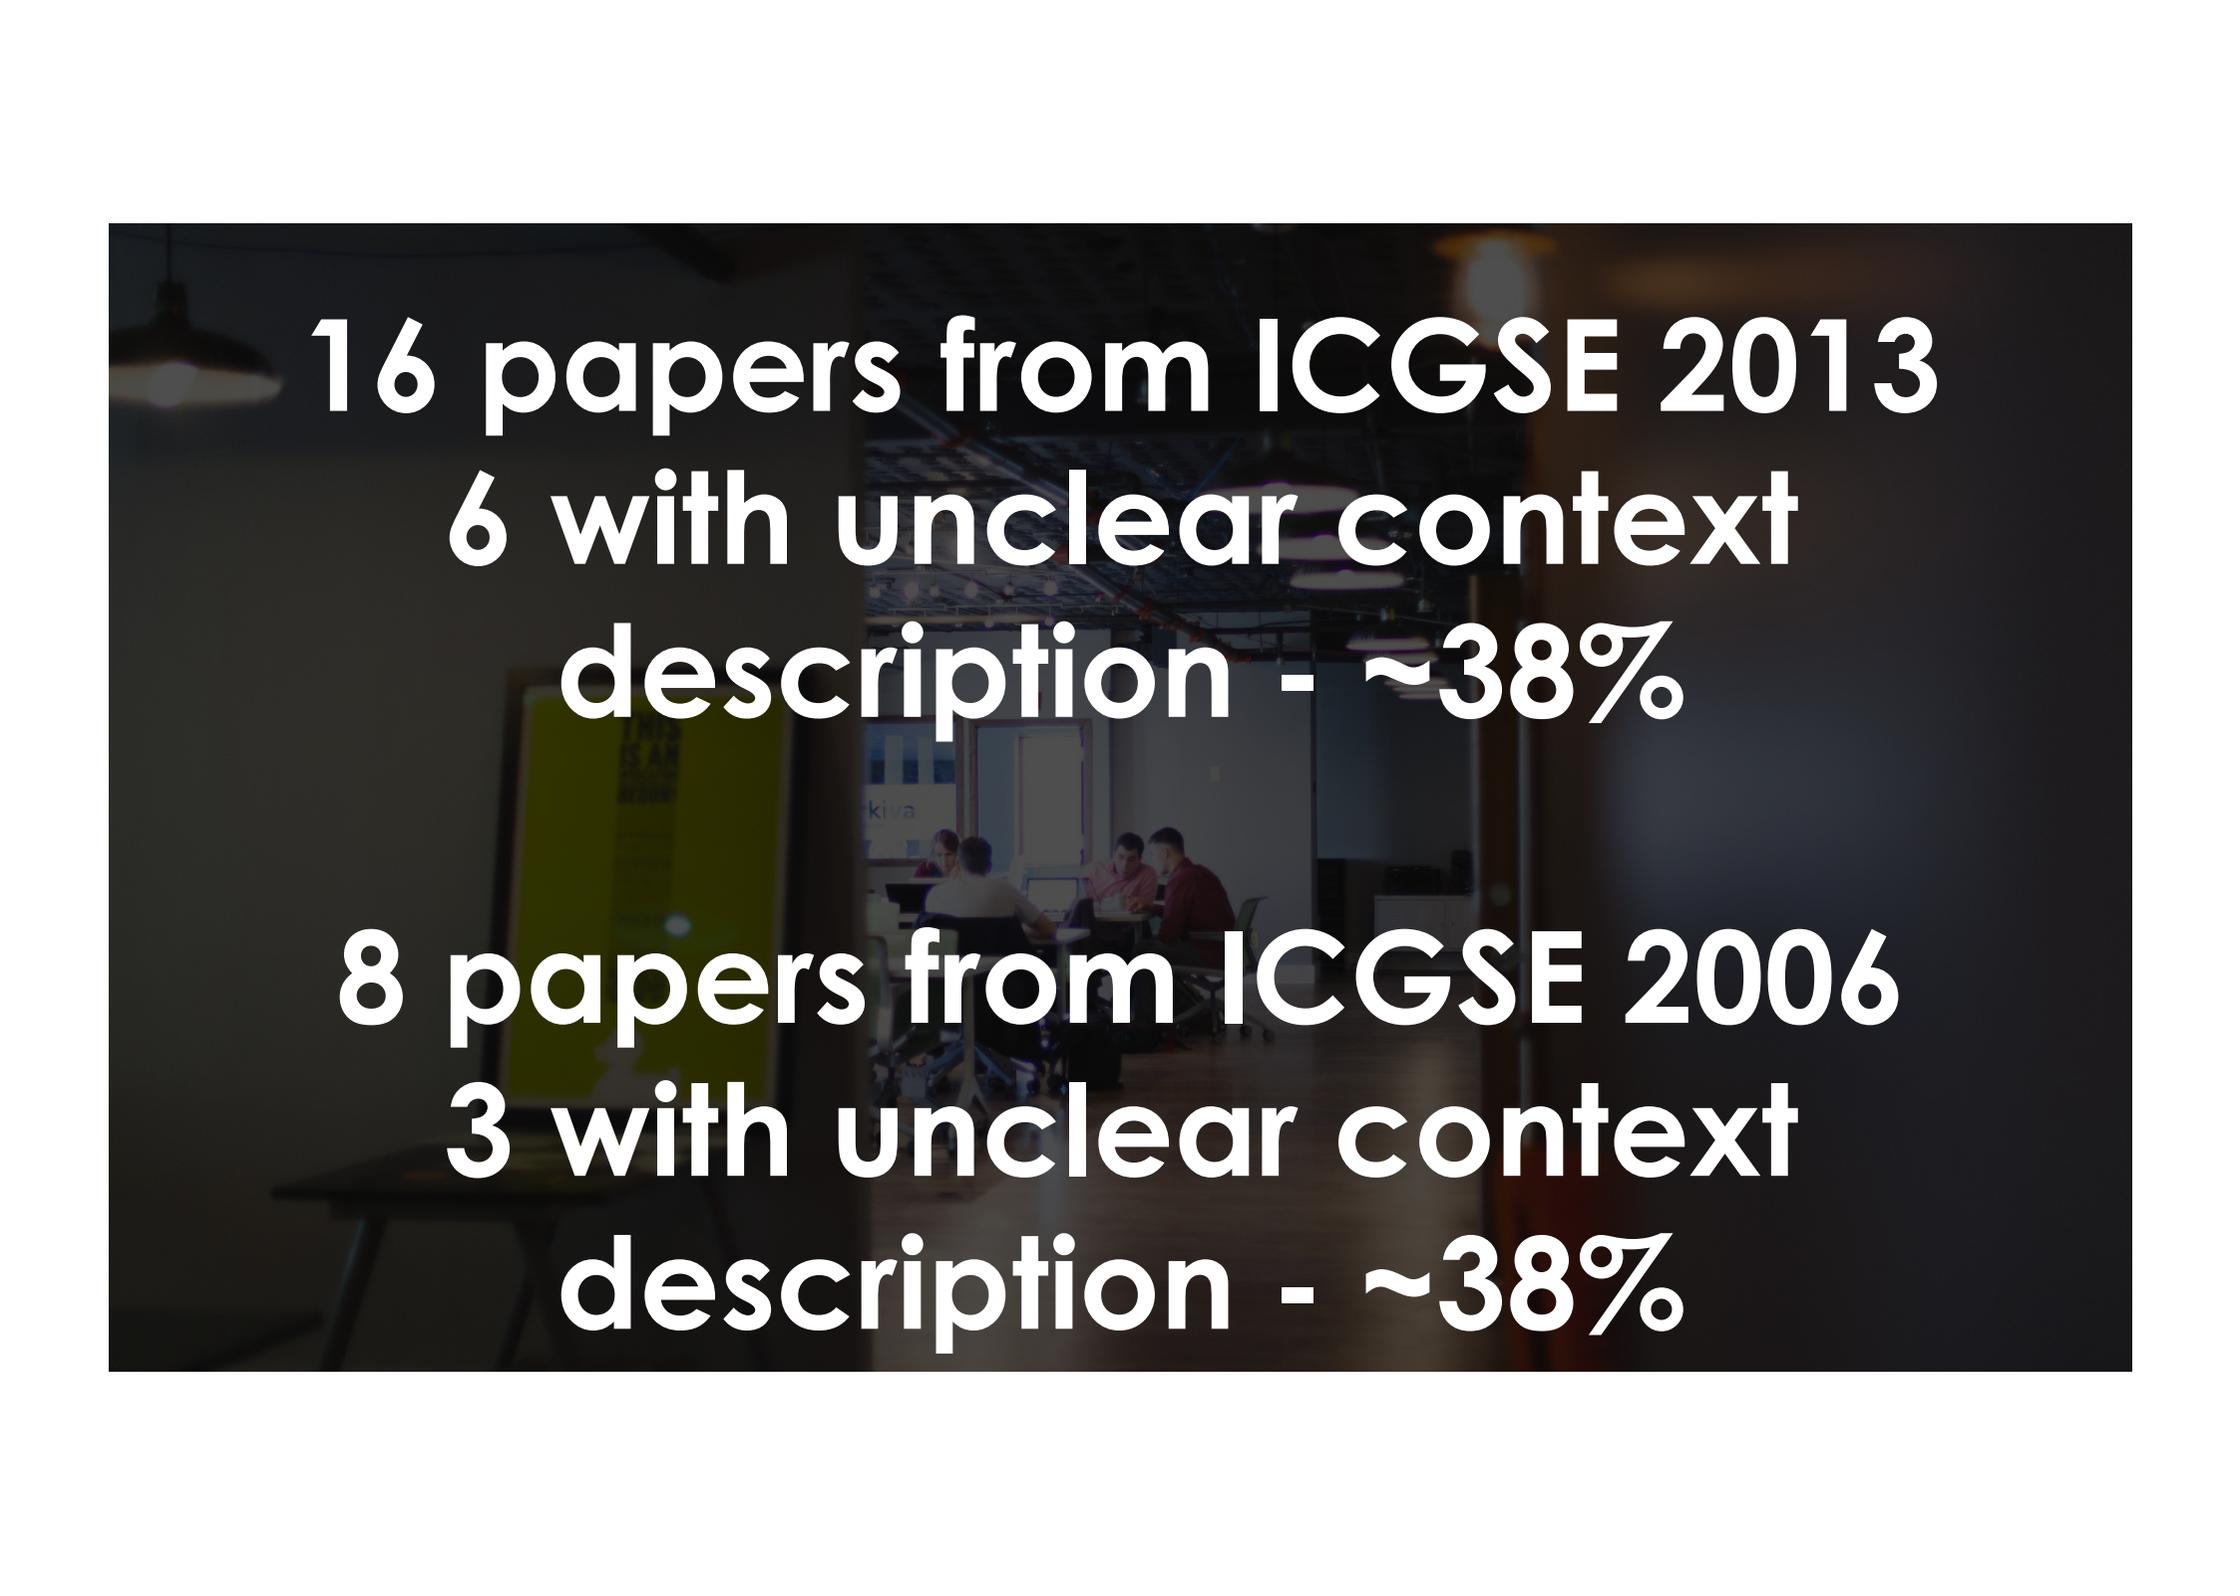

16 papers from ICGSE 2013
6 with unclear context
description - ~38%

8 papers from ICGSE 2006
3 with unclear context
description - ~38%

We need to improve the description of our empirical studies
